Title I

A Time To

Thirty years gone by already. Times remembered, times forgotten, times embossed in memories. Bethel High School has educated over 40,000 thousand students on its thirtieth anniversary. The end of the Vietnam War, the assassination of Martin Luther King, Jr. and Robert Kennedy, the moon walk, the resignation of Richard Nixon, the fall of the Berlin Wall, the L.A. Riots, the bombing of the New York Trade Center, the Oklahoma bombing, the presidential scandal . . . . Moments in history that will be forever emblazed in each of these students' memories. Thirty years of proms, thirty years of games, thirty years of history have passed through these hallowed halls, and hopefully thirty years more. These are our memories, our reminisces, our *times to remember.*

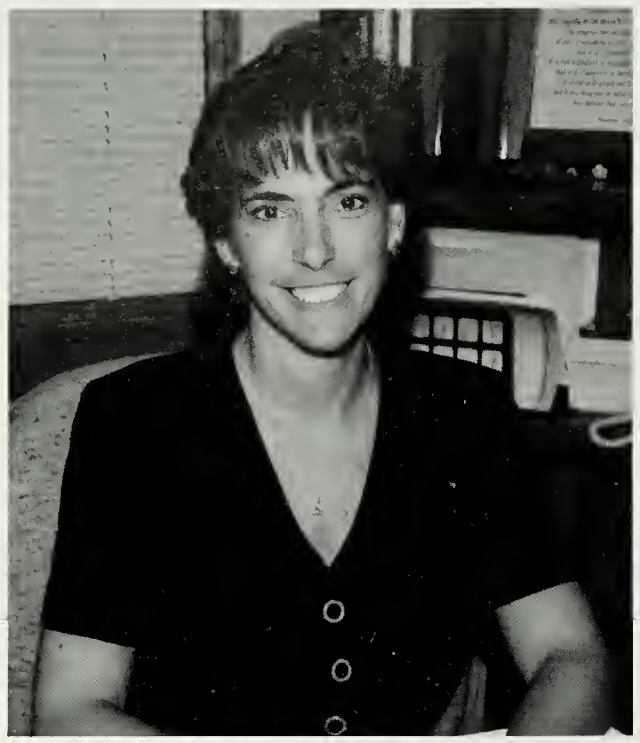
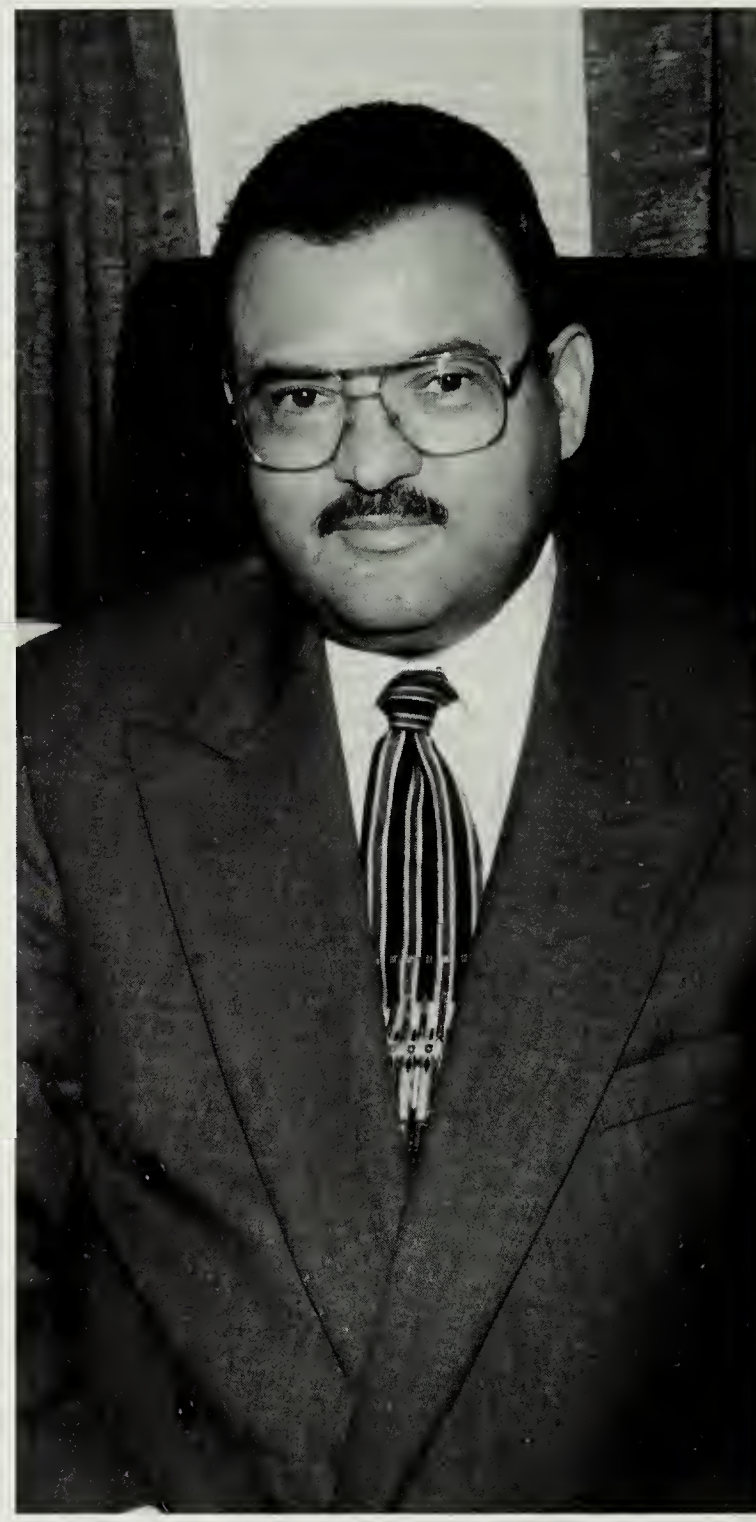
ADMINISTRATION





Message from the Principal

The vision of the school system speaks to having students fully prepared for success in the global economy. There are many experiences in the school, the home, and in the community that form the foundation for students to develop a work ethic, make wise choices and to ultimately be successful.

I often think of one of your class leaders who came here as a somewhat unsure and unknown ninth grader. Through opportunities afforded her at Bethel and through her own initiative, she matured and evolved into a bright, charismatic leader. I know that she will be successful in the future. Many students have to work to help support their families financially. This work ethic and love for the family will serve them well in their various careers as they become self-supporting or raise their own families. Many of our students distinguished themselves by volunteering in the community. The understanding that we do not always get paid for what we do and that there are many in the community who need our services will cause our seniors to be positive and caring citizens in their respective communities.

Success comes in many ways and can be described differently by any individual who attains it. Whatever your goals are in life that are related to being successful, I sincerely hope that each and every senior will reach that goal and beyond. Benjamin Mays once said, "It must be borne in mind that the tragedy in life doesn't lie in not reaching your goal. The tragedy lies in not having a goal to reach.

Many students graduated from Bethel and went into the world with no experience of what they want to do in life. This school gives students two advantages: one, they get an early chance to figure out which career interests them the most and they also receive three credits for one class.

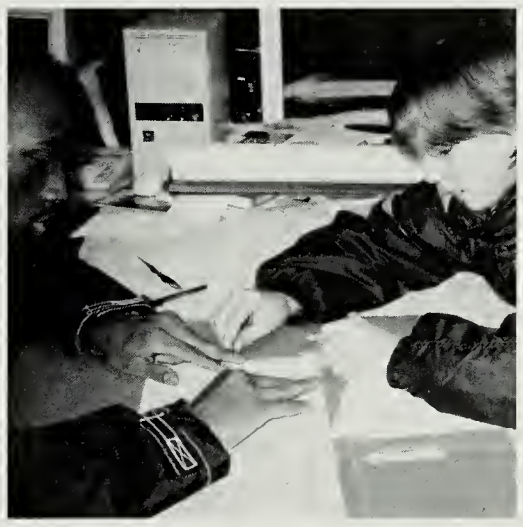
problem-solving skills in order
build a plane.

Together We Are United
Glenn Wood and Jason Frink, both sophomores, have discovered that no problem is to difficult to solve.

Vocational and Practical Arts

One Step Ahead

Vocational and practical courses are necessary for many students' lives. Many students now take these classes with interests in engineering, technical drawing, and problem-solving. Being taught hands-on work, basic survival, and well thought-out drafting and mapping material is necessary for our future. These students were given leverage for when they are out in the working world.



Team Work
Barry Holliday, a sophomore, and Jason Drake, a freshman, quickly learn that team work speeds up the problem solving task.

Basic Survival
Raschad Beamon, a sophomore, says, "This Foundations class teaches us about basic survival skills in life."

Problem-Solving
Nathan Garrett, a junior, says, "Building this plane, taught me a lot about problem-solving."

Back To School

Back to School Night in 1998 was the best one ever. Hundreds of parents came with their students to meet the teachers. Some of the parents got lost and some knew where they were going. Some of the classes were small and some were packed with parents. We had a few new teachers who weren't sure what they were doing. One thing that didn't change was the big speech by Mr. Pearson.

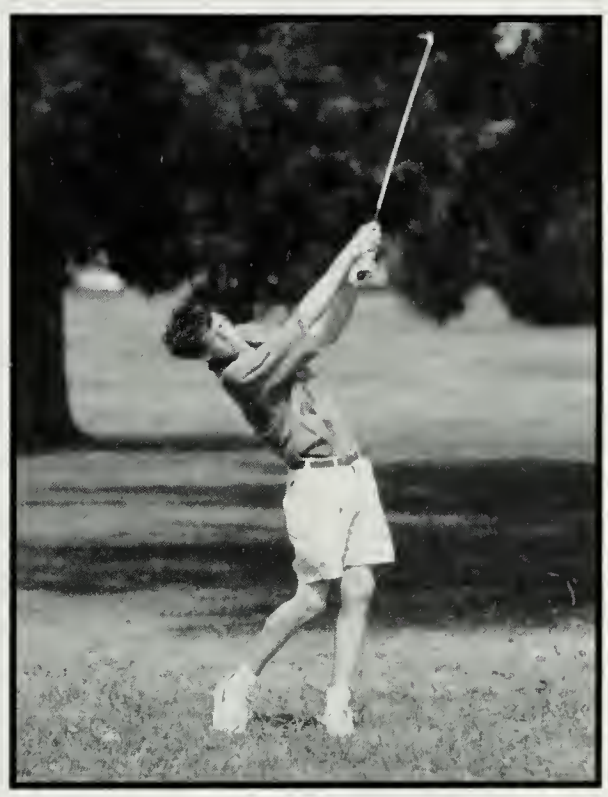
LET'S GET READY TO RUMBLE



"I love the competition out there to give me a challenge in life. I also get a chance to meet a lot of new people and make friends

-Brad Gregory '99

I play sports because it keeps me in shape and it gives me something else to put on my college application.

-Marie Giles '00

Cheerleading is fun, but a hard-working sport. It takes a lot of time and dedication. We work hard to reach our goals! This year our main goal was to win districts for the third time, and to win state.

-Julie Wood '00

The Bruins entered the '98 football season with their heads up and their hopes high. They put all they had into each game, but at times came up a little short. In the end, the Bruins finished second in the district. They didn't win the championship, but they won a lot of respect from their teammates, their coaches, their parents, their friends , and most of all their school.

Head Coach Dennis Kozlowski (with the assistance of Coach Terry Vann) lends another strategy to his starting offense at the victory against Kecoughtan in '98 football season.

Jason Wood, starting quarterback, begins another attempt to score in the '98 homecoming game against long time rival, Hampton High School.

Traditionally, the Bruins come together to get their minds ready for the game, get last minute tips from their coach, and of course take a second to admire each other's beauty.

The Bruin Defense was on point this season. The starting linebackers, Ryan Holloway-#33 & Benetas Walker-#57, averaged more than eight tackles per game. The opponent may have scored but they definitely had several bruises to show for it.

Bethel Basketball!

The Kings and Queens of the hard wood.

The boys basketball team had a tough season this year. But the boys team had a lot of young players. They are going to have a lot of players returning for the year 2000. The team only lost five seniors this year. With that many players returning the bruins will rule the court in the year 2000.

The Varsity girls team record was 11-7 and they were tied for fourth in the district. Their biggest victories were against Woodside and Denbigh. The reason for the lady bruins' sucess was great coaching and a good team effort.

Look at that precious little face. As much as we loved you and cared for you at that time of your life, there is no way we could have dreamed that you would have accomplished all that you have done by your senior year in high school. Your academic achievements, your placement into positions of responsibility by both your peers and instructors, your numerous awards and elections within the music venue, your high levels of maturity and responsibility, your self confidence, your self-motivating qualities, your personal growth, your sense of humor, your smile .. simply amaze us. You are all we could have hoped for in a smart, beautiful daughter and ten times more. If there is nothing else that we accomplish in life, we'll still have the immense pride of knowing our daughter has grown into the wonderful daughter we know as Lisa Marie Hagen. Thank you for all that you have given us and we wish you continued success and happiness in the future.

2 Timothy 4:1-5
(Charge to Preach the World)

I charge you therefore before God and the Lord Jesus Christ, who will judge the living and the dead at His appearing and His kingdom:

Preach the World! **Be ready in season and out of season.** Convince, rebuke, exhort, with all longsuffering and teaching.

For the time will come when they will not endure sound doctrine, but according to their own desires, because they have itching ears, they will heap up for themselves teachers; and they will turn their ears away from the truth, and be turned aside to fables.

But ***you be watchful*** in ***all*** things, ***endure*** afflictions, ***do the work of envangelist, fulfill your ministry.***

I Love You,
Your mother

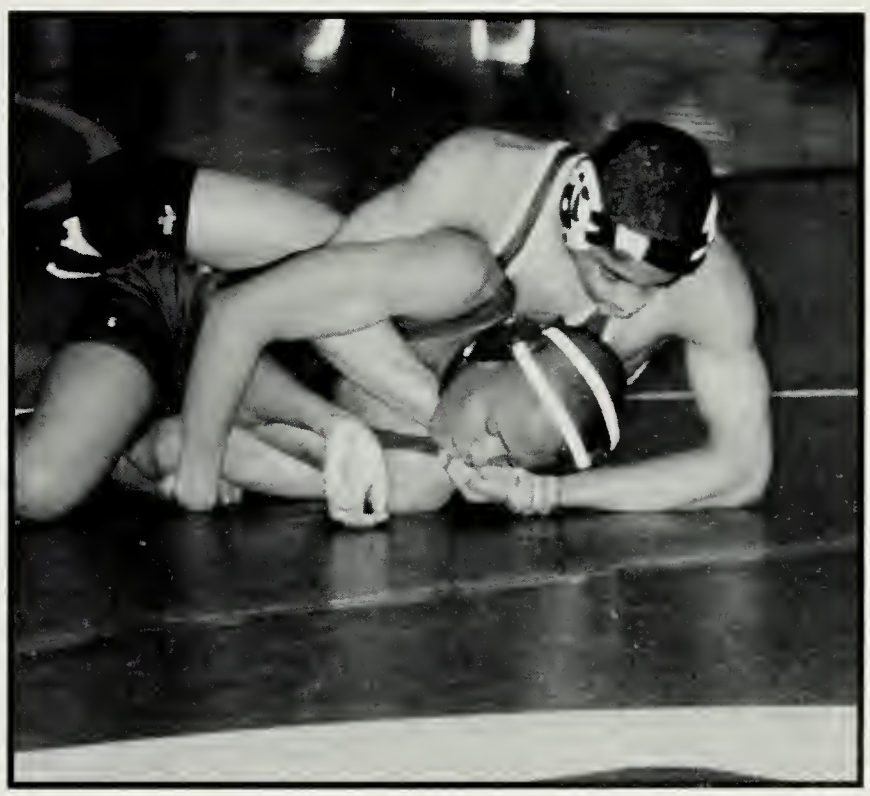
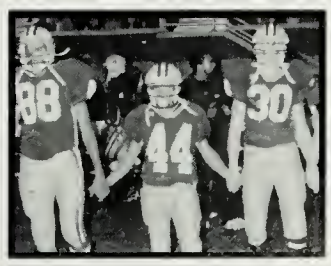
Time's Up

It's time to say goodbye, but not to forget the memories.





Life at Bethel has been great. It definitely prepares you for the real world. I'm going to miss everyone after I graduate. I wish everyone the best of luck.

-Melony Rathbun 99'

For the past two years I've had the best time of my life. I've enjoyed every moment except for the boring classes.

-Amy Chitwood 01'

It's a huge change from middle school to high school. It's weird going from the top of middle school to a freshman.
